#### **PURPOSE**

It is the policy of Self Help Africa to conduct our work in an honest, open and ethical a manner and in compliance with the law.

This document focuses on the complaints handling elements, definition of concepts on complaints and feedback, core principles, parameters and scope of Self Help Africa's, and provides practical guidance in implementing basic mechanisms for handling complaints and feedback.

#### **CATEGORIES**

Self Help Africa has six categories of issues received through our Complaints and Complaints Response Mechanism (CRM). These include:

- 1. Request for information
- 2. Request for assistance
- 3. Feedback
- 4. Minor dissatisfaction with activities
- 5. Major dissatisfaction with activities
- 6. Fraud, theft, corruption, verbal/physical/sexual abuse and/or exploitation

In addition, disclosures can be received from Internal Audit, staff or other parties (such as suppliers or partners) that fit the Category 6 description. All complaints and disclosures, irrespective of their scale, that fit the description of Category 6 must be escalated to Head Office in Dublin. Even small-scale cases of fraud or any form of abuse must be highlighted, in case they are indicators of a wider systemic risk.

Category 5 major dissatisfaction complaints are also considered important, but should be dealt with in the first instance by in-country complaints handling procedures. During the course of an investigation, the country programme management may find it necessary to re-categorise a complaint to a Category 6. In such an instant, this SOP will apply in respect of escalating the issue to HQ.

#### WHAT TO REPORT

If related to Self Help Africa or a Self Help Africa implemented programme, ANY allegation of fraud, corruption, physical or sexual abuse/exploitation - irrespective of scale or about whom it is raised - should be reported as per the Initial Serious Wrongdoing Report.

### DEVELOPING THE COMPLAINTS AND COMPLAINTS REPONSE MECHANISM

Beneficiary/community stakeholder consultations will be held to inform the design of both the Complaints and Complaints Response and Information Sharing mechanisms, as well as media – posters, awareness raising campaigns, etc.

#### **DEFINITION OF TERMS AND CONCEPTS**

A Complaint is a grievance made against Self Help Africa or more specifically against one of its employees, associated "consultants" or partners where the organisation has allegedly failed to meet a commitment. That commitment might be related to our activities, our use of resources, our mission and values, staff conduct / behaviour or a legal requirement. It is a criticism that expects a reply and would like things to be changed.

Feedback is a positive or negative informal statement of opinion which is shared for information only but not with the intention of lodging a formal complaint. Feedback is all about provision of information

either positive or negative to make changes in programme/project implementation. Feedback may not always require response; it is general and can be used as learning purpose.

#### COMPLAINT AND COMPLAINTS RESPONSE MECHANISM IN SELF HELP AFRICA

Self Help Africa recognises the fact that for a Complaint and Response Mechanism (CRM) to be effective it has to incorporate the following principles:

- Confidentiality: Community members have a right to expect that their privacy will be respected,
   and their complaint will be investigated in a confidential manner
- Accessibility: Community members will be given a range of contact options. Including a
  dedicated phone line, email address, face to face meetings, community meetings
- Safety: It is crucial to look at the local context (general safety, political, cultural aspect) and conduct possible Risk-assessment. The safety of specific person who complains and provide feedback is an essential component in the mechanism.
- o **Transparency**: Details on how the complaint will be handled, by whom and the response time frame should be given to the complainant

The following are the core principles of Self Help Africa's CRM:

- All complaints and constructive feedback will be taken seriously whether submitted from a named source or anonymously.
- All complaints will be handled swiftly so far as reasonably practicable depending on the nature and complexity of the matter, ensuring that they are dealt in a timely manner.
- The process for making a complaint will be made clear to stakeholders.
- o All complaints will be recorded on a centralized database held at HO.
- Complaints will be addressed at national level (field and Head Office), using the agreed complaint procedure and only escalated to management or Head Quarters if they are of a serious nature.
- Sufficient resources and expertise will be provided to handle complaints.
- Staff will be briefed on the nature and purpose of the policy and senior managers dealing with the complaints will be given training in handling complaints.
- Confidentiality relating to the complaint will be safe guarded so far as reasonably practicable including the person(s) to whom the complaint is addressed.
- o Issues of conflict of interest will be identified to ensure objectivity.
- Complaints will be handled in accordance with Self Help Africa policies and procedures and in accordance with local laws and regulations.

These members are selected by the community and comprise of a male and a female. These selected members will be present during all the key meetings in order to collect feedback or complaints from beneficiaries. One of the main criteria of the FCMs is that they should be literate. The FCMs will be given a registration book (with pre-set columns to be filled please see Annex 1) to record all feedback and complaints. Registration books will be regularly be checked by the focal Self Help Africa member of staff who will in turn collate the feedback/complaints and send it on a calendar quarterly basis to the Focal Person at HO using a pre-defined template please see Annex I. Responses that can be addressed at field level will be addressed as soon as possible. Complaints/Feedback that need HO involvement will be addressed within the pre-defined time frame as set out on Table 1, Page 5.
- Functional Traditional and Community Based Feedback and Complaints Response Mechanisms: Traditional feedback and conflict resolution mechanisms can be assessed and used as feedback for complaints.
