WHO ARE WE

For over 50 years Self Help Africa has looked at Africa in a different way.

It's a continent of need, but also of opportunity. There are many mouths to feed, but almost as many entrepreneurs to nurture.

At the heart of our work is one fundamental principle; each of the individuals with whom we work is a small business owner, looking to earn an income.

We provide the tools, knowledge and opportunities to enable these people to develop their micro-businesses and farms.

The income earned feeds their families and it pays for the education for their children, shelter for their family and access to better healthcare.

We call it a 'help – up, not a hand-out'

All funds raised at our **FIRECRACKER CHARITY BALL** will go to the people who need the support, women, men families and communities – so that they can acquire the tools and knowledge necessary to lift themselves out of poverty.

WHAT IS THE FIRECRACKER CHARITY BALL?

The Firecracker Charity Ball is Self Help Africa's event recognising and celebrating the change that we see among the communities Self Help Africa works with in Africa.

For seven years, we have hosted Charity Ball events in New York, Boston, Galway. More than 5,000 people have attended and enabled us to raise more than £3.5 million to support our work in sub-Saharan Africa. Figures from the world of business, finance, entertainment, law, hospitality and a wide variety of other industries have supported all our Charity Balls since inception.

In 2017 we have two new Charity Balls in Shropshire the hub in industry in the UK and Dublin.
